

250 GALLON PRODUCING COLD BREW SYSTEM

BREW VESSEL FEATURES:

- 312 Gallon Operating Capacity
- 250 Gallon Yielding System
- Constructed of 304 food grade stainless steel
- Energy efficient four (4) layer jacket, insulation, clad, and skinned brew vessel
- Open top design with 4" dished bottom drain
- Easy to clean design with manway and drop chute for discharge
- Clean in Place (CIP) spray ball removable from tank
- Four (4) stainless steel legs with adjustable feet
- 1.5" sanitary manual ball valve for water inlet
- Glycol jacket for rapid cooling

SYSTEM FEATURES:

- Variable speed motor for shaft driven agitation
- Variable speed motor for liquid transfer pump
- Independent digital control panels
- Interior 304 stainless steel filter
- Exterior 304 stainless steel filter housing
- Hand held mixing oar

BREW SYSTEM OPTIONS:

- Water/Glycol chiller
- Advanced depth filtration system
- Advanced Allen Bradley touch screen controls
- Advanced high yield liquid transfer pump
- Matching holding/blending and brite tanks

BREWING SPECIFICS:

- Maximum Capacity **312 gallons**
- Minimum Batch Size **85 Gallons**
- Processing Time **6 - 8 hours**
- Recommended Ratio **1/2 pound coffee to 1 gallon of water**
- Electrical Draw **208VAC, 3PH, 16A, 60Hz**
- Piping Size **1.5"**
- Maximum Flow **34 GPM**
- Micron Rating **100 - 1 Micron**
